PROFILE

Aspiring Artificial Intelligence and Full Stack Developer passionate about leveraging technology to solve real-world problems. Eager to apply machine learning, deep learning, and web development skills to create impactful, intelligent, and secure solutions. Committed to continuous learning, innovation, and contributing effectively to dynamic tech teams.

PAPER AND PROJECT PRESENTED

PAPER PRESENTED

- Autonomic Computing
- Thought identification technology
- Metaverse

PROJECT PRESENTED

- Crime rate predictions using the K-means algorithm
- Medicine Tracking System
- Gamified Platform For Learning

AREA OF INTEREST

- Artificial Intelligence and Deep Learning
- Full Stack Web Development(MERN Stack)
- Data Analytics and Visualization

PROFESSIONAL MEMBERSHIP:

- Robotics Club
- Indian Society For Technical Education

SKILL

- Problem Solving
- Communication
- Time Management
- Critical Thinking
- Team Collaboration
